JOZINI MUNICIPALITY

REPORT OF THE AUDITOR-GENERAL

30 JUNE 2010

The report of the Auditor-General South Africa will be inserted after the audit.

STATEMENT OF THE MUNICIPAL MANAGERS RESPONSIBILITY

JOZINI MUNICIPALITY ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2010

The Jozini Municipality is situated Circle Street, Bottom Town Jozini is a category B Municipality established in terms of section 12 (1) of the Municipal Structures Act, No.117 and published in terms of Provincial Government Notice 346 on the 19 September 2000. The Local Government Operations of the Municipality are assigned by section 156 and 229 of the South African Constitution and defined specifically in terms of section 83 of the Municipal Structures Act.

I am responsible for the preparation of these financial statements, which are set out on page 1 to 53 in terms of Section 126 (1) of the Municipal Finance Management Act, Act 56 of 2003 which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors as disclosed on note 12 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the remuneration of the Public Office Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this act.

Mr N.N. Nkosi
Municipal Manager

27 August 2010
Date

JOZINI MUNICIPALITY
ACCOUNTING POLICIES
for the year ended 30 June 2010

1 BASIS OF ACCOUNTING

1.1 BASIS OF PRESENTATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise. These annual financial statements have been prepared in accordance with the Generally Recognised Accounting Practice (GRAP) issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

These standards are summarised as follows:

GRAP 1	Presentation of Financial Statements
GRAP 2	Cash Flow Statement
GRAP 3	Accounting Policies , Changes in Accounting Estimates and Errors
GRAP 4	The Effects of Changes in Foreign Exchange Rates
GRAP 5	Borrowing Costs
GRAP 6	Consolidated and Separate Financial Statements
GRAP 7	Investments in Associates
GRAP 8	Investments in Joint Ventures
GRAP 9	Revenue from Exchange Transactions
GRAP 10	Financial Reporting in Hyperinflationary Economies
GRAP 11	Construction Contracts
GRAP 12	Inventories
GRAP 13	Leases
GRAP 14	Events After the Reporting Date
GRAP 17	Property, Plant and Equipment
GRAP 19	Provisions, Contingent Liabilities and Contingent Assets
GRAP 100	Non-current Assets Held for Sale and Discontinued Operations
GRAP 101	Agriculture
GRAP 102	Intangible Assets

Accounting policies for material transaction, events or conditions not covered by the above GRAP Standards have been developed in accordance with paragraph 7,11 and 12 of GRAP 3. These accounting policies and the applicable disclosures have been based on the South African Statements of Generally Accepted Accounting Practices (SA GAAP) including any interpretations of such Statements issued by the Accounting Practices Board.

The Accounting Standards Board has set transitional provisions for individual standards of GRAP as set out in Directive 4 issued in March 2009. Details of the transitional provisions applicable to the municipality have been provided in the notes to the annual financial statements.

A summary of the significant accounting policies which have been consistently applied except where transitional provisions has been granted are disclosed below as per Directive 4.

**JOZINI MUNICIPALITY
ACCOUNTING POLICIES
for the year ended 30 June 2010**

1.2 PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.3 GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on a going concern basis.

1.4 STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality:

GRAP 18	Segment Reporting - issued March 2005
GRAP 21	Impairment of Non-Cash-generating-assets - issued March 2009
GRAP 23	Revenue from Non-Exchange Transactions - issued February 2008
GRAP 24	Presentation of Budget Information - issued November 2007
GRAP 26	Impairment of Cash-generating-assets - issued March 2009
GRAP 103	Heritage Assets - issued July 2008
IAS 19	Employee Benefits - effective 1 January 2009
IFRIC 17	Distribution of Non-cash Assets to Owners - effective 1 July 2009

2 PROPERTY, PLANT AND EQUIPMENT

2.1 INITIAL RECOGNITION

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset's given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

**JOZINI MUNICIPALITY
ACCOUNTING POLICIES
for the year ended 30 June 2010**

2.3 SUBSEQUENT MEASUREMENT - COST MODEL

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits associated with the asset.

2.4 DEPRECIATION AND IMPAIRMENT

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The annual depreciation rates are based on the following estimated average asset lives:

	<u>Years</u>	<u>Other</u>	<u>Years</u>
Infrastructure			
Roads and Paving	30	Buildings	30
Pedestrian Malls	30	Specialist vehicles	10
Electricity	20-80	Other vehicles	5
		Office equipment	3-7
		Furniture and fittings	7-10
		Watercraft	15
Community			
Buildings	30	Bins and containers	5
Recreational Facilities	20-30	Specialised plant and equipment	10-15
Security	5	Other items of plant and equipment	2-5
		Landfill sites	15

The residual value, the useful life of an asset and the depreciation method is reviewed annually and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipality tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

The Municipality has taken advantage of the transitional provisions permitted by the Accounting Standards Boards, in terms of Directive 4 issued in March 2009, with respect to the measurement of property, plant and equipment as set out in paragraph 73 to 83.

2.5 DERECOGNITION

Items of Property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

3 INTANGIBLE ASSETS

3.1 INITIAL RECOGNITION

An intangible asset is an identifiable non-monetary asset without physical substance. Examples include computer software, licenses, and development costs. The municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset's given up.

3.2 SUBSEQUENT MEASUREMENT - COST MODEL

Intangible assets are subsequently carried at cost less accumulated amortisation and impairments. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

3.3 AMORTISATION AND IMPAIRMENT

Amortisation is charged so as to write off the cost or valuation of intangible assets over their estimated useful lives using the straight line method. The annual amortisation rates are based on the following estimated average asset lives:

Computer software	5 years
-------------------	---------

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each reporting date and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipality tests intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of an intangible asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

The Municipality has taken advantage of the transitional provisions permitted by the Accounting Standards Boards, in terms of Directive 4 issued in March 2009, with respect to the measurement of Intangible Assets as set out in paragraph 110 to 118..

3.4 DERECOGNITION

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

4 FINANCIAL INSTRUMENTS

4.1 SUBSEQUENT MEASUREMENT

Financial instruments are initially recognised at fair value.

Financial Assets are categorised according to their nature as either financial assets at fair value through profit or loss, held-

4.2 RECEIVABLES

Trade and other receivables are categorised as financial assets: loans and receivables and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 12 months from the reporting date are classified as current.

4.3 IMPAIRMENT OF TRADE RECEIVABLES

An impairment of trade receivables is accounted for by reducing the carrying amount of trade receivables through the use of an allowance account, and the amount of the loss is recognised in the Statement of Financial Performance within operating expenses. When a trade receivable is uncollectible, it is written off. Subsequent recoveries of amounts previously written off are credited against operating expenses in the Statement of Financial Performance.

4.4 FINANCIAL LIABILITIES: ACCOUNTS PAYABLE

Financial liabilities consist of trade payables and borrowings. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value and subsequently measured at amortised cost which is the initial carrying amount, less repayments, plus interest.

4.5 CASH AND CASH EQUIVALENTS

Cash includes cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets: loans and receivables.

4.6 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

4.7 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

4.8 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

4.9 PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate. Where the effect is material, non-current provisions are discounted to their present value using a pre-tax discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability (for The municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a (b) The municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

5 COMPARATIVE INFORMATION

5.1 Current Year Comparatives

Budgeted amount have been included in an annexure to these financial statements for current financial year only.

5.2 Prior Year Comparatives

When presentation or classification of items in the annual financial statements is amended, prior period comparatives amounts are restated. The nature and reason for the reclassification is disclosed. When there has been a change in the accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparative is restated accordingly.

6 REVENUE

6.1 REVENUE FROM EXCHANGE TRANSACTIONS

Revenue from exchange transactions refers to revenue that accrued to the municipality directly in return for services. Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the recorded number of refuse containers per property.

Interest revenue is recognised on a time proportion basis.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff. This includes the issuing of licenses and permits.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods is passed to the consumer.

for the year ended 30 June 2010

6.2 REVENUE FROM NON-EXCHANGE TRANSACTIONS

Revenue from non-exchange transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when payment is received.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have Contributed property, plant and equipment is recognised when such items of property, plant and equipment qualifies for recognition and become available for use by the municipality.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible Councilors or officials is virtually certain.

7 GRANTS, TRANSFERS AND DONATIONS

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset. A corresponding liability is raised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without

14 TRANSITIONAL PROVISIONS

The Municipality has taken advantage of the transitional provisions permitted by the Accounting Standards Board, as set out in Directive 4 issued in March 2009 as follows:

GRAP 1	Presentation of Financial Statements - paragraphs 7-8A
GRAP 9	Revenue from Exchange Transactions - paragraphs 37-38
GRAP 17	Property, Plant and Equipment - paragraphs 73-83
GRAP 19	Provisions, Contingent Liabilities and Contingent Assets - paragraph 93-94E
GRAP 102	Intangible Assets - paragraph 110-118
